

The Philosophy

- Our philosophy is to provide quality care in the least restrictive environment (the patients' home) as would be provided in the restrictive environment (the hospital).
- The delivery of skilled and ancillary service must be in compliance with all government standards, rules and regulations.
- Care must be consistent with the needs of our patient while being cost effective.
- We recognize that every human being has personal rights which must be respected and should not be violated.
- We are committed to our patients and strive to ensure that they receive all entitled health care benefits.
- A Registered Nurse is on call and available 24 hours a day, seven days a week.

Our Vision

- Our vision is to be the home care agency of choice in the communities we serve.
- We value our patients and each other. Therefore we treat all people with respect, empathy, courtesy and compassion. Privacy is paramount.
- Our Mission is to provide the best health care for our patients; in the privacy of their own home; in a cost-effective manner.
- By treating our patients at home, skilled home care nurses can detect complications in the early stages and report them to the physician.
- All About Home Health Care can assist the physician in helping our patients avoid an additional hospital stay.
